Management of contacts

Persons (including caregivers and HCWs) who have been exposed to individuals with suspected COVID-19 are considered contacts and should be advised to monitor their health for 14 days from the last day of possible contact.

- A contact is a person who is involved in any of the following from 2 days before and up to 14 days after the onset of symptoms in the patient:⁵
- Having face-to-face contact with a COVID-19 patient within 1 meter and for >15 minutes.
- Providing direct care for patients with COVID-19 disease without using proper personal protective equipment.
- Staying in the same close environment as a COVID-19 patient (including sharing a workplace, classroom or household or being at the same gathering) for any amount of time.
- Travelling in proximity with (that is, within 1 m separation from) a COVID-19 patient in any kind of conveyance; and other situations, as indicated by local risk assessments.
